## REMARKS

RECEIVED  
CENTRAL FAX CENTER

JUL 26 2006

*Status of the claims*

Claims 1-5 and 7 are canceled. Claim 6 is currently amended.

Claim 6 is pending and under consideration with entry of the Amendments.

Support for the amendments can be found throughout the specification as filed, for example on page 7 in Claims 1 and 5 as originally filed.

*Drawings*

The Examiner has objected to the drawings because they must show every feature of the invention specified in the claims. Therefore, the "pin" of claims 5 and 6 must be shown or the features canceled from the claims. (Action page 2.)

Applicants attach herewith replacement Figure 1 which includes the addition of references numbers 9 "pin" and 10 "handle". Additionally, Applicants have amended the specification in connection with the amendments to Figure 1 to incorporate the descriptions of 9 "pin" and 10 "handle". Both the pin and the handle are found in the specification as originally filed, for example on page 5 lines 34-35 as well as in Claims 5 and 6 as originally filed. No new matter has been introduced. Thus, Applicants request withdrawal of the objection.

*Specification*

The Examiner has objected to the disclosure because of the informality on page 4 of the specification, specifically lines 3 and 4 which lack information. (Action page 3)

Applicants have amended page 4 of the Specification to include descriptions of reference number 9 as "Pin of closure device" and reference number 10 as "Handle of closure device". Both the pin and the handle are found throughout the specification as filed, for example on page 5 lines 34-35. No new matter has been introduced. Thus, Applicants respectfully request withdrawal of the objection.

*Claim Rejections – 35 U.S.C. §102*

The Examiner has rejected claims 1, 3, 4, and 7 under 35 U.S.C. §102(b) as being anticipated by US 5,720,406 (Fassbind et al). (Action page 3)

Applicants have cancelled claims 1-5 and 7. Therefore, the rejection is moot. Applicants respectfully request withdrawal of the rejection.

*Claim Rejections – 35 U.S.C. §103*

The Examiner has rejected claims 1, 2 and 3 under 35 U.S.C. §103(a) as being unpatentable over EP836884 in view of US 5,683,659 (Hovatter). Additionally, the Examiner has rejected claim 5 under 35 U.S.C. §103(a) as being unpatentable over US 5,720,406 in view of US 6,776,964. (Action page 4)

Applicants have cancelled claims 1-5 and 7. Therefore, the rejection is moot. Applicants respectfully request withdrawal of the rejection.

*Allowable Subject Matter*

The Examiner has objected to claim 6 as being dependent upon a rejected base claim, but claim 6 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. (Action page 5)

Accordingly, Applicants have rewritten claim 6 in independent form and have amended the claim to include all of the limitations of the base claim 1 and intervening claim 5. Applicants respectfully request withdrawal of the objection.
